

Operations Manager

Location: Sydney, NS

Term: Full Time, Permanent

Anticipated Start Date: As Soon As Possible

If you are someone who:

- wants to be part of a company creating cutting edge products & technologies that are making a huge impact in how we insulate and daylight buildings.
- loves improving processes and are confident in your ability to improve systems and accurately guide operations.
- Understands that your company only wins if the all the stakeholders succeed, so you need to make your employees successful and set up and maintain great relationships with suppliers.

The Opportunity - We are looking for someone who has had a career in operations, manufacturing or the food industry and has gained leadership and management experience in those roles.

If this sounds like you, and you are looking for a move into a rewarding position as operations manager in a growing manufacturing company, this job may be for you.

Who We Are - *Advanced Glazings Ltd. are the #1 Leader in Engineered Glass Daylighting Solutions.* For more than two decades, we have been changing the way we experience daylight indoors. Our SOLERA® and SoleraWall® line of glass products provide the best quality natural light along with the highest thermal insulation performance in the world.

We have installed more than 2200 projects across all seven continents. With an impressive roster of projects including the *Golden 1 Center and Practice Facility* (home of the Sacramento Kings), *OVO Athletic Centre* (practice facility for Toronto Raptors and the Smithsonian Museum to name a few.

This is great opportunity for an individual who has:

- Experience in operations management
- Ability to understand and implement quality management principles (at source responsibility, process capability, six sigma design and process documentation)
- Leadership abilities and an appreciation of the human challenges that must be addressed in order to implement lasting change in a manufacturing environment.
- Strong desire to have an impact on their organization.
- An appreciation of the human element that is the core to creating and maintaining successful effective teams.
- Work according to company culture and values, prioritize ruthlessly, use good communication, and deliver results effectively.
- 'Hands-on' aptitude to be able to fully understand manufacturing processes.
- Proficient in Excel and computer skills
- Ability to create and maintain good working relationships with suppliers.
